

KQ MRO SIGNS A MAINTENANCE CONTRACT WITH VULE AIRWAYS

KQ Maintenance has signed a maintenance agreement with Vule Airways, an airline based in Uganda for provision of aircraft and aircraft components maintenance by KQ MRO for Vule Airways. The General Terms Agreement was signed in a colourful event at Entebbe on Tuesday 16th January 2018

Robert Nviiri, Chairman and Managing Director of Vule Airways and Radj Jagbandhan, Acting Technical Director of KQ MRO during the sign-off

About Vule Airways

VULE AIRWAYS is a privately-owned Ugandan registered airline that serves both domestic and international passenger and cargo services.

It is to be operated as a budget airline, initially building on regional routes, and finally operating international routes, thus evolving from a domestic and regional airline into a domestic and long haul airline covering all the continents of the world

The name VULE is comes from a well-known indigenous tree in Uganda commonly locally known as Muvule or mahogany in English, whose timber is famous for its strength and beauty, the very attributes that define VULE AIRWAYS

Fleet

Vule Airways will operate the following aircrafts in its fleet:

- 1 Dash-8 (De Havilland DHC-8-200)
- 1 Boeing B767-300ER
- 2 Boeing B737-800
